## A MESSAGE FROM IHA

# The Strength of Local Communities Depends on the Strength of Local Hospitals

It is **CRUCIAL** that Illinois has strong and adequately funded healthcare providers.

**Just as lives depend on our hospitals, our hospitals depend on the support of government and the public.**

## Illinois hospitals and health systems generate:

**\$108.1b** Statewide Economic Impact

**493k** Jobs Bolstering Working Families

## Impact of COVID-19

### On Communities

After two years, it is abundantly clear that COVID-19 has presented the most significant challenge in healthcare in over a century, affecting communities throughout Illinois. The pandemic exposed health disparities and strained hospitals and the healthcare heroes who work tirelessly to care for their communities.

### On Healthcare

Strengthening the healthcare workforce is a key focus for hospitals and health systems, which provide essential, good-paying jobs and are committed to providing staff with the support and resources they need. Hospitals have also embraced the important role of community health workers to expand access to care and advance health equity within and beyond the four walls of the hospital.

**1 in 10** Illinois jobs are in healthcare
